CONSTRUCTION PROJECTS IN SSF

2023/2024 Street Surface Seal Project

This project will provide asphalt pavement maintenance of several residential, collector, and arterial streets in Downtown and Old Town neighborhoods of the City of South San Francisco (City) as part of the Pavement Management Program (PMP). The contractor will deliver advance notifications to residents, businesses and public services so that they are made aware of the upcoming street work and the specific dates and times when residents will be impacted by the work. Street parking will be temporarily impacted during construction. Temporary No Parking signs will be deployed notifying the

public of the street parking that will be impacted by the scheduled work. Residents can expect minor delays through the work zones during construction. Temporary vehicular detour signage will be deployed. The use of alternate routes is encouraged. Please follow signage and safety personnel instructions. For information on the 2023/2024 Street Surface Seal project, please visit the SSF website at www.ssf.net/departments/public-works/engineering-division/public-notifications-community-meetings.
